

## DIPROTODON OPTATUM - AUSTRALIAN MEGAFAUNA

Giant Wombat - Worlds largest marsupial - Lived from 150,000 -10,000 years ago

Fossil remains of a Diprotodon were found at Cormorant Drive Reserve in 1992

This playground will include educational information about megafauna found in South Australia.

Concept design is for illustrative purposes only. Council retain the right to modify the design in consideration of unknown site conditions, cost management considerations and internal approvals.

#### EXISTING SITE - Approximate location for Equipment

Most of the playground equipment will be within the footprint of the existing playground. The picnic table and Equipment Option A or B is within a flat shady area outside of tree protection zones.

Note: The Diprotodon fossil is life-size (approximately 2.5m long)
