City of Marion

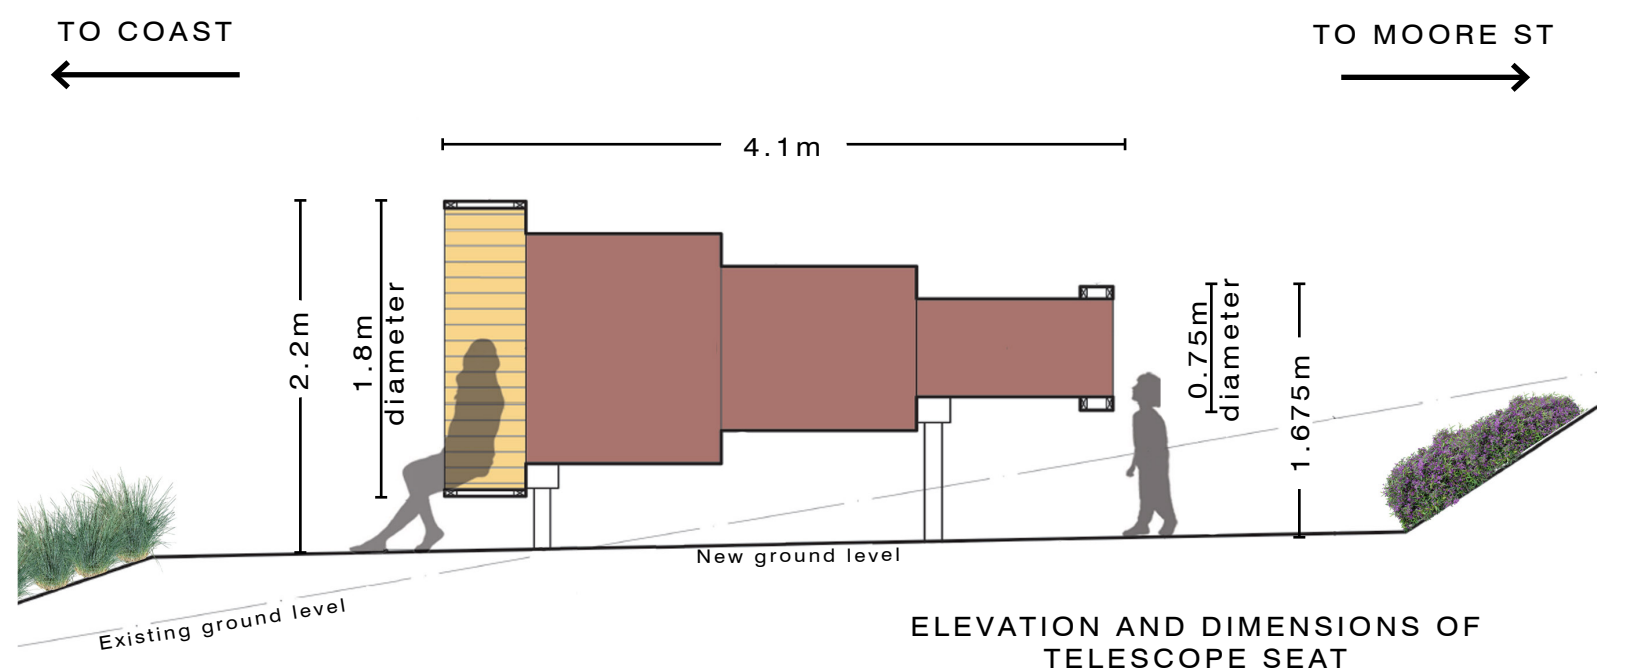

At a general Council meeting in August 2022, Council endorsed minor reserve improvements for Vista Street Reserve. The improvements include a new seating art node with pathway access and landscaping from Moore Street.

The theme of the seating art node is to celebrate the amazing views from Vista Street Reserve. The sculptural seat is designed to symbolise a telescope. One can interact with the iconic telescope seat to view and enjoy the vista from the top of the hill by either looking through the eye hole framing the view at one end, or by sitting and observing at the other end.

A new path will be created leading to the telescope to provide access to this area. Native landscaping will surround the seating node.

Construction is due to commence in March 2023
