Local Council

Welcome to your local council area!

There are 68 local councils in South Australia. These councils provide important services and facilities to local residents.

The range of services provided by your local council is in response to the needs and priorities of the community. The services can vary from one council area to another depending upon the council's location and size.

Communities can work with their council to influence what happens in their area and to develop programs.

This guide will explain how your local council can help you. It was developed to describe:

- how councils work
- some of councils' rules
- what councils can do for you.
